

Chesapeake Cats & Dogs, Inc.

Working to provide a life of love and dignity for all animals

August 2009

Well, the dog days of summer may be upon us, but, really, dog and cat days are every day! In an effort to raise funds needed for eye surgeries for **Callie and Casper***, there are many events planned in August. Callie and Casper thank you for supporting their eye surgeries, and we thank you for helping the homeless.

Volunteer of the Month

The Hendrickson family has been volunteering for CCAD for several years. They started as dog fosters and, last summer, began fostering kittens, including several bottle babies. Three of those have become part of their family (Twizzler, Little Bear, and Harley). Most recently, the Hendricksons fostered Lola and her seven kittens. They also help clean the Center one day a week; Amanda and Bethany work weekends so that the Center can remain open 7 days a week.

The Hendricksons have six cats and two dogs at home and, before volunteering with CCAD, volunteered at Grateful Paws and helped with the cats and kittens at Lowes Nursery in addition to volunteering at the Baltimore Aquarium and local humane societies. 🐾

Fred is doing well. His appetite has returned and he seems much more comfortable. He is scheduled to have his glucose checked the first week of August.

Cat of the Month

Hil I'm Ginger! It has been more than a month since my ear and paw operations and I'm feeling great! Both ears are healing well and I'm able to walk around so much better on my paw. I have adjusted well at my foster home, where I am kept in a small room that has, among other things, many toys for me to play with and a scratching post that I instantly began to use and hang out on. Playing with toys is such fun, and I recently discovered catnip, which is also wonderful. I would love very much to soon be in a permanent "loving home." I am a gentle little girl that has lots of love to share. 🐾

Dog of the Month

Poor Buddy was so scared in the shelter, but when he came out recently, he was thrilled. He was glad to see his sisters and brothers. He is just 3 years old and will need training, but he is a beautiful sable color and loves dogs and people. 🐾

*Callie and Casper

These sweet cocker spaniels came into our rescue center from a kill shelter that was overflowing. When they came in, it was obvious how neglected they had been. We discovered that both are blind from cataracts—and they are only 3 and 5 years old. Surgery will help them see again. Imagine their joy to be able to run, play, and see! Help us help them. 🐾

Sasha and Cloudy and Sunny came to the Center recently. They had been trapped at a farm in Annapolis and were being fostered there. It would be great if

you had the opportunity to come in and meet these kittens and help them to become more comfortable.

Moon Beam is doing so much better, as you can see. Her eyes are now so very bright and beautiful. She has wanted to write to all of you, but has been so very busy welcoming all of our new felines to our home.

ADOPTION STORIES

Here is Mowgli in "a quiet moment." You can't really tell, but he is HUGE!!! Mowgli is hard to photograph because he loves to attack the camera. He has really turned into a wonderful pet. He plays wildly, but loves his cuddle time just as much. He gets along well with the other animals. Actually, he seems to be the boss. Our 3-legged beautiful lab will come over to Mowgli, and he will just repeatedly smack him in the head. He does not use his claws, so I think that he is playing. Our other cat would like Mowgli to settle down and is often cowering somewhere. A minute later, they are cleaning each other.) Anyway...he is beautiful and we all love him!! Thanks for everything.—Wendy and Natalie Gallo

Beau Beau Baby is now walking on his injured back leg; he is starting to put some bounce in his steps. Not 100% yet, but coming along. Love, Wanda

Just wanted to send you a recent picture of Miranda. She is a delight—we are always laughing at her. She has become just as attached to us. When we come home, she greets us at the door, rolling at our feet. She & Airos still play, although she has gotten bigger and rougher. He has to ask her to back off sometimes. He's not as young as he used to be. They are so different, it's really funny. He likes to lie on the bed, curled up, while Miranda is usually stretched straight across. It's really cute to watch her walk over to lick his head; she makes sure he's well groomed. Thanks again! Jennifer Kane

RECENT PET ADOPTIONS

Cat adoptions in July included **Houston**, to Alan Debnam of Centreville; **Taz and Elmer**, to Adrienne Crux, Annapolis; **Patches and Lavender** to Amy Snyder, Annapolis; **Mouse and Callie**, to Barbara Foor, Chester; **Cinderel-**

—Cindy Jenkins is a new member of our Board of Directors. A long-time dedicated volunteer, Cindy was July's Volunteer of the Month. She's been an outstanding foster, and lives in Grasonville with her husband, son, 3 dogs, and 9 cats. Welcome, Cindy!

—What an absolutely gorgeous evening to share with families and friends at the **third annual cookout**

for **CCAD**. Thank you so much for your dedication and support. I especially would like to thank Wendi for her hard work preparing for this fundraiser and for sharing her lovely home. By the end of the evening, we had raised approximately \$1,800.00, not including those that paid in advance.
